The Resurrections from the Dead and Eternal Judgment

After decades of study, the author presents many under-considered aspects the Biblical Doctrine of the Resurrections from the Dead and Eternal Judgment as identified in Hebrews chapter 6. This 96-page 8-1/2 by 11 booklet considers the personal resurrections of the Saints and the Rest of the Dead, referred to in Revelation 20, those who are to be brought back to life after the Millennial Age. Its primary focus is the under-considered personal resurrections as they apply to all humanity, of all ages, not that of Jesus Christ, which is adequately covered by traditional Christianity. It explains why there needs to be more than one resurrection and why they are separated by a thousand years. Many less used passages of Scripture are taken under closer consideration, including the very words of Christ where He relates a period of time in which ancient peoples will rise together and 'condemn' other resurrected societies for their non-responsiveness to Salvation's availability. More importantly, it then addresses the questions regarding those who died, never having been afforded a legitimate opportunity for Salvation and what happens to them as it regards their Eternal Destiny.

God's Holy Spirit: the Divine Nature is a 56-page, 11-chapter booklet that takes a fresh look into the limitless Power that gives existence to all things. While the material Universe is our most tangible reality, there is also a Spirit World, created of and by the omnipresent Spirit of God! While the modern theologian considers the Nature of God under conceptualizations developed sixteen centuries ago, we find what was intended to be a unifying consensus, to be a powerfully divisive factor. While some take an 'anti-Trinitarian' position, it is the intent here to present a 'non-Trinitarian' view, equipping the reader with answers to give to the traditionalists. This booklet steps away from conventional explanations and acquaints the reader with a broader set of considerations. Gods' Spirit functions as the means of existence of all things, material and non-material, animate and inanimate. It accounts for the existence of the vast universe and all that is in it, not only its existence, but its being sustained continually.

"For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his Eternal Power and Godhead; so that they are without excuse:" (Rom. 1:16-20)

Understanding the Millennial KINGDOM of God If it weren't for our religions, we might be better able to understand the Bible! Countless passages are rendered confusing or unfathomable due to ideas of men injected into the Theological thought-stream, borrowing from pre-existing religious beliefs, particularly Gnostic and Mithraic Cults, as well as other Theological errors that are 'home grown' within the bounds of what is considered "Orthodox Religion". This 76-page booklet takes a long hard (and perhaps unsettling) look into one of the most deeply rooted fundamental beliefs in all of christianity. This due to it being one of the major obstacles to understanding the very Core Doctrines brought to mankind with and by the Ministry of Christ. He came preaching "the Gospel of the Kingdom of God", yet our religions have wonderfully misconstrued exactly what that kingdom really entails. It was not to be this evil generation, though its future populace would be living among them, despised and rejected as was He. But perhaps the greater message set forth within the account of Christ's Millennial Kingdom is that it will provide the opportunity denied to the masses of humanity that died, never having had an opportunity for salvation, AND then what happens after that! It's a story no serious, thoughtful disciple of our LORD should neglect.

Discussions on The Sacred Calendar – Division or Unity

(a 48-page, 9 chapter booklet, 8-1/2 x 11)

It is more than curious that a matter not shown to be of any great concern, (at least not in the writings of the apostles in the New Testament), should have gained so much focus in the modern Church age. While there were differing opinions among various worshippers in the first century, those differences apparently didn't find their way into the dialog within the early Christian community. One thing we can say is that the matter of the Sacred Calendar (not that Scripture ever uses that term) wasn't set forth as even a minor theme among the Saints of the first century.

There is that contingent among believers today who have identified certain aspects of calendar determination which they find unacceptable, as they see it, and advocate alternate methods of identifying when each new moon occurs.

This booklet discusses the more obvious issues that exist and seeks to acquaint believers with information not usually discussed. While most worshippers prefer to 'leave it to the scholars' due to their disinterest in delving into such matters themselves, still we would be remiss to leave such matters aside, considering the amount of discord it is shown to generate.

Considering the division calendar issues are known to cause, we are never absolved of responsibility to address them as best we can, to do "due diligence" in at least resolving the divisiveness factor.

GNOSTICISM and the New Testament Church

(a 56-page, 7 chapter booklet, 8-1/2 x 11)

It is well known that the early Church had its problems maintaining the True and Pure Faith. That faith once delivered came under attack early on. Paul warned of it, as had Jesus Christ before him. John made reference to the contaminated teachings that were incessant threats, both from the Judaic world and from the Pagan world. Philosophies were ever-present, particularly in the Greek culture of the day, and were poised ready to be assimilated into the primitive religious culture that had begun with the teachings of Christ and His original apostles. Vigilance was most needful, yet in time, the Church lost its first love (for the Truth and for the Master's Word), and apostasy set-in. Only a remnant remained faithful to the pure Word in later centuries. They were those who recognized the Truth and who were aware of the contaminations of Gnostic philosophy.

While the beloved elderly apostle John warned the Church of encroaching errors, we shouldn't presume that he stemmed the tide just with his warning. No, the onslaught continued unabated becoming like a flood. The majority of "early Church fathers" after him embraced apostasy, while those few believers who held fast to the original teachings suffered at their hands. Religious persecutions were instigated by the religious establishment as much as by secular powers.

Celebrating the PROMISED LAND and the Wave Sheaf Offering

(a 67-page, 10 chapter booklet, 8-1/2 x 11)

The annual Feast of Pentecost is perhaps the most enigmatic Jew / Christian observance. While most denominations ascribe to its observance, yet there is still wide diversity as to the determination of when this day is in fact 'fully come' and is to be observed. This author can count no less than seven different determination methods employed in the modern era. This treatise considers one of those.

It isn't just the release from 'bondage' and the completion of our personal Exodus that is the ultimate end of the story. We have a greater objective: That of becoming included in Christ's firstfruits generation. In that, we look to another culmination observance, like with the Exodus, one which has a beginning and an ending. The beginning being the outpouring of God's Holy Spirit on the Day of Pentecost, fifty days after Christ's presentation before the Father, to be accepted for us, that first post-resurrection Sunday morning, and the ending, our harvest as the 'firstfruits unto God', resulting from a lifetime of growing in the Spirit to the fullness of the stature of Christ. This booklet will present aspects of this fiftieth-day observance that are unique among the Churches of God in this generation.

The Feasts of the LORD revealing the PLAN of Redemption

(a 40-page, 9-chapter booklet, 8-1/2 x 11)

For the first 2500 years of human history, seasonal cycles were observed and crops were planted in their appropriate seasons. The life-spans of just three individuals would have attested to the continuity of practice of charting and observing the cyclical growing seasons from the time of Creation to the time of Jacob. Adam died 220 years after Methuselah was born and Methuselah died 100 years after Seth was born. Seth died about the time Jacob was born. If there had been any change to traditional astronomical observances, there was continuity in the lifetimes of these patriarchs to attest to such change.

One change God made to the long established calendar cycle, occurred at the time of the Exodus, He reversed the seasons of each year. Spring became the start of the 'new year'. This to use the created harvest seasons to illustrate God's Plan for the redemption of all of humanity. Much is revealed about that Plan in the seven annual Holy Days, that God Himself calls "The Feasts of the LORD". Even the Apostle Paul attests to the prophetic nature of Biblical Holy Days in Colossians 2:17. To fully understand God's Plan, we must take into account what these days reveal.

How Many Beings are in the GODHEAD? (Is Jesus God?)

The Longest running Controversy in Judaeo-Christian Religion is the matter of the Full Identity of Jesus Christ. The Premise of His also being God Divides Judaic Theology from Christian Theology as does No Other Issue. These many items presented herein offer many concise reasons why the Church of God accepts Christ's Personal Divinity and His Pre-Incarnate Existence. If God had intended we conceive of Him as a Single Being, WHY are there so many unequivocal statements that affirm His Son as being God also? The Controversy did not originate in the New Testament Era. The seeds of Misunderstanding and Theological Conflict were planted back in earliest times. What was the Major Contention that Christ had with Jewish Theology that ultimately led to His being sentenced to a most extreme death sentence? **More than 45 Substantial and Inter-Supporting Reasons Acknowledge Jesus' Eternal Divinity!** If you are in any way unsure of what position to take or how to defend your understanding on this important matter, be sure to arm yourself thoroughly with the Truth of God's Word. The comprehensive information provided in this Booklet will provide you with a Basis of Understanding and a Confidence in which to stand.

APOCALYPSE: The Revelation of Jesus Christ.

A 64-page booklet, in a full 8-1/2 x 11 format, presents a more focused look at the sequence of events prophesied about the "end time". The book of Revelation, also known in theological circles by its untranslated title as "the Apocalypse" (which in Greek means a 'revealing') represents the greatest enigma of all the books of the Bible. With its abundance of graphic symbolism and its intricate levels of detail, it can confound the most educated theologian, while causing others to take great leaps into speculative territory where, as the old song says, "angels fear to tread"!

As an explanation of the reason for taking such an approach as this booklet does is that oftentimes, as we read with riveted fascination, we don't always realize that there has been a pause in the sequential narrative, or a set-back in time in order to further explain one of the scenes previously presented. This can cause us to lose our place as to where we are in the prophetic story flow. So perhaps as yet another tool in fathoming Jesus' extraordinary revelation of "things which must shortly come to pass;", this reorganized approach may prove a helpful format to those of us who are still coming to better understand those things prophesied in its most amazing profoundness. It is hoped that this booklet will help enhance understanding of what was penned by the beloved Elder Apostle, John by direct command of his loving Lord and Master.
